## CONTEXT & PRESENTATION

The scientific event serves as a major interdisciplinary platform for exchange between researchers, livestock professionals, animal health experts, and stakeholders in the valorization of natural products.

The event highlights the critical synergies between the resilience of livestock systems, reproductive biotechnologies, and the valorization of bio-resources—such as apiary products, bioactive molecules, and nutritional additives—to foster a sustainable agricultural economy in Algeria.

## SCIENTIFIC THEMES

<b>A</b>	<b>Animal Health, Welfare, and Production Quality</b>
<b>B</b>	<b>Feeding, Local Resources, and Nutritional Value</b>
<b>C</b>	<b>Reproduction, Genetics, and Herd Improvement</b>
<b>D</b>	<b>Sustainable Development, Innovation, and Local Economy</b>
<b>E</b>	<b>Open Session</b>

## MAIN OBJECTIVES

- Analyze livestock challenges and natural product valorization opportunities.
- Promote animal health, genetics, and alternative nutritional strategies.
- Evaluate natural substances for therapeutic and prophylactic applications.
- Advance adapted biotechnologies and resilient nutritional biosecurity protocols.
- Establish collaborative networks for resilient agricultural development roadmaps.

## TARGET PARTICIPANTS

- Teacher-researchers and doctoral students
- Veterinary practitioners
- Farmers, cooperatives and professional associations
- Public/private agricultural institutions
- Students in veterinary, agronomic and biological sciences

## SCIENTIFIC COMMITTEE

Chair: KHIATI Baghdad
